

Alubux (BUBX) - Whitepaper

■ Introduction

Alubux (BUBX) is a community-driven, utility-oriented token built on the BNB Smart Chain. It combines the viral potential of meme culture with real-world applications, eco & charity support, and transparent tokenomics designed to benefit both early adopters and long-term holders.

■ Mission & Vision

Our mission is to create a cryptocurrency that not only thrives as a viral, global memecoin but also contributes positively to society and the environment. Alubux aims to be a token that is fun, profitable, and impactful. Our vision is to build a strong ecosystem where Alubux can be used for payments, donations, eco-projects, and community-driven initiatives.

■ Tokenomics

- Total Supply: 4,000,000,000,000,000 BUBX
- Decimals: 9

Allocation:

- Presale: 45–50%
- Liquidity: 25–30%
- Marketing & Partnerships: 10–15%
- Team Reserve: 5–10%
- Airdrops: up to 5%

■ Utility

- ****Payments****: Enable Alubux as a means of payment with merchants, starting with online pilot programs. - ****Charity & Eco****: A portion of marketing funds will support animal shelters, children in need, and reforestation projects. - ****Staking & Rewards****: Future development includes staking pools and community rewards. - ****Gaming & NFTs****: Potential integrations with blockchain games and NFT utilities.

■ Roadmap

Phase 1: Launch & Awareness - Smart contract creation & PinkSale presale - PancakeSwap listing & LP lock - CMC & CG applications - Initial marketing campaigns
Phase 2: Community Growth - Telegram, Twitter, Instagram expansions - KOL partnerships & influencer marketing - Charity campaigns (animals, environment)
Phase 3: Utility Expansion - Payment integrations & staking - Eco & charity smart-contract proofs - Early gaming/NFT partnerships
Phase 4: CEX & Scaling - Listing on Tier 2/3 CEXs - Global expansion campaigns - Further utility integrations
