

Alubux (BUBX) - Project README

****Chain:**** BNB Smart Chain (BEP-20)
****Symbol:**** BUBX
****Decimals:**** 9
****Total Supply:**** 4,000,000,000,000,000 BUBX
****Contract:**** 0x4843588e66700ed5E2c4F8BC6f9b61E686d9cDa9

Alubux is a utility-driven, community-first memecoin with real goals: viral growth + simple utility (payments/merchant pilots), eco & charity support, and transparent tokenomics.

■ Key Features

- Fixed supply (no minting after deploy).
- Low-tax design; 0% buy tax, 1% sell tax split between liquidity and marketing/charity.
- Anti-bot ready (PinkSale Anti-Bot compatible).
- Liquidity auto-added on listing; LP locked.

■ Tokenomics

- Presale: ~45-50% supply.
- Liquidity: ~25-30%.
- Marketing & charity: ~10-15%.
- Team reserve: ~5-10%.
- Airdrops: up to 5%.

■ Roadmap (high level)

1. Presale & Listing (marketing push, KOLs, TG & X growth).
2. LP lock proof + BscScan verification + CMC/CG submissions.
3. Utility pilots: payments integrations & partner discounts.
4. Eco/charity campaigns (on-chain proof & reports).
5. CEX outreach + further utilities & community rewards.
